4TV™ 2112, an Extraordinary TV/Music Solution

The 2.1 Channel 4TV 2112 Audio Entertainment Console provides amazing component-level audio performance and is designed to fit directly under the TV, or on top of a furniture cabinet below a wall mounted TV set. The system's stunning smoked glass and an aluminum ultra-low profile enclosure integrates perfectly with today's televisions. The 2112 features virtual surround sound with Dolby Digital and DTS decoding and a built-in subwoofer for powerful authoritative bass. And for music streaming, there is an instant connection for an optional Apple® Airport Express® and Bluetooth® wireless. The system also learns your TV remote control and includes a host of connection and control options, making the 4TV 2112 simple to setup and easy to use.

audioxperts™
