audioxperts

A category defining, 2-piece, 5.1 channel music and surround sound system.

The 2-Piece 5.1 Channel 4TV 5122 Audio Entertainment Console provides amazing component-level audio performance and is designed to fit directly under the TV, or on top of a furniture cabinet below a wall mounted TV set. The system's stunning smoked glass and an aluminum ultra-low profile enclosure integrates perfectly with today's televisions. The powerful 5122 wireless subwoofer can be placed horizontally directly under the main console or hidden under a couch or vertically with the included feet against a wall. The system features a top-mounted touch control panel, true 5.1 surround sound with side-firing dipole surrounds and Dolby Digital and DTS decoding. And for music streaming, there is Bluetooth® wireless and an instant connection for an optional Apple® Airport Express®. The system also learns your TV remote control and includes a host of connection and control options, making the 4TV 5122 simple to setup and easy to use.
