

We are excited to announce the introduction of the Krell **Vanguard Universal DAC** and the Krell **Vanguard Digital Preamplifier**. Both begin shipping this week and have retail prices of €5.940 and €6.790 respectively.

## The Vanguard Universal DAC and the Vanguard Digital Preamplifier

The **Vanguard Universal DAC** and

**Vanguard Digital Preamplifier** include USB, HDMI, coaxial and optical digital inputs; Ethernet music streaming controlled through dedicated iOS and Android apps; and aptX Bluetooth for wireless streaming from phones, tablets and computers.

Vanguard Universal DAC  
UVP  
**5.940,00 €**

Vanguard Digital Preamp  
UVP  
**6.790,00 €**

### Inputs include:

Coaxial and HDMI inputs support PCM up to 24-bit/192kHz. Optical input supports up to 24-bit/96kHz

2 HDMI 2.0 inputs support DSD and 4K content.

HDMI output includes Audio Return Channel for use with smart TV streaming services such as Netflix, Vudu, and Pandora.

USB and Network streaming support MP3, AAC, WMA, WAV(PCM), FLAC, ALAC up to 24b/192kHz

Digital to Analog output stage features 32 bit ESS Sabre DACs and feeds a classic Krell discrete balanced output stage.

The **Vanguard Digital Preamplifier** adds volume control capability to the discrete balanced output stage.
